

I would love to be able to pick and choose channels that I pay for. I only watch my local 3 channels and about 4-5 others. I can't stand that I have to pay for so many that I never even watch. The same thing with my 83 yr. old mother. She has severe dementia but like the TV on for the news. But she also has to pay \$300 a month for dish and still doesn't get the local channels. I certainly don't want to have to end up paying more for several though than I do for 60. Please don't make it like custom calling features at the telephone companies. You pay as much for one or two as you do for a whole pkg. It's a joke!!
